PROFESSIONAL SUMMARY

Frontend developer with strong fundamentals in HTML, CSS, and JavaScript and basic knowledge of React.js, currently expanding into full-stack development using React.js, Node.js, and Next.js.

Good understanding of data structures (up to queues) and problem-solving in Java. Eager to learn and contribute in real-world development environments.

SKILLS

- **Programming Languages:** JavaScript, Java
- **Frontend:** HTML, CSS, React.js(learning)
- **Backend (Learning):** Node.js, REST APIs
- **Tools:** Git, GitHub, VS Code
- **Concepts:** Responsive Design, Component-Based Architecture, DSA (Arrays, Linked List, Stack, Queue)

PROJECTS

Work-Link (JavaScript + Node.js)

- Developed a basic full-stack Service booking portal using JavaScript and Node.js
- Implemented backend logic and handled basic data flow between frontend and server
- Gained understanding of REST API structure and request handling
- Designed with the idea of solving service accessibility problems for blue/grey collar workers.
- GITHUB : <https://github.com/madhur-kardam/WORK-LINK>

Indore Property Price Prediction Platform (Python + FastAPI + Machine Learning)

- Developed a full-stack House Price Prediction platform using Python, FastAPI, Machine Learning, HTML, CSS, and JavaScript.
- Trained a Random Forest Regression model on a custom dataset covering 140+ Indore localities with features such as location, plot size, BHK, floors, and furnishing status.
- Implemented REST APIs using FastAPI to provide real-time property price predictions and integrated them with a responsive frontend.
